3 UNDERSTANDING THE SIX POINT AGENDA

GAIN is a network of Christian leaders and Entrepreneurs who hold strongly to the doctrine of Christ and share the same purpose, manner of life and love for the kingdom of God in line with the vision received from God by the founder, Dr. 'Tunde Bakare. GAIN is an organization made up of Church Ministers, Entrepreneurs, and Corporate Professionals who are in a covenant relationship, making inputs to one another and working together with a common vision to maximize the end-time harvest. Members of the network, while fulfilling their individual God-given mandate, seek to work collaboratively from their various Ministries, Churches, Kingdom Businesses and Establishments through genuine covenant relationships with one another towards the fulfilment of God's ultimate purpose.

Showcasing EXCELLENCE

PASTOR TUNDE BAKARE
SERVING OVERSEER CGCC

“Your unwavering crusade against corruption, your sincere love for Africa and your work as a respected pastor, statesman and philanthropist is unquestionable”

In the GAIN family, we have challenged ourselves for the establishment and consolidation on the different mountains of culture for Kingdom impact and visibility, God has graciously granted grace to THE PRESIDING APOSTLE AND MANY OTHER SERVANTS OF GOD within the GAIN family to either be appointed to positions where they can make impact or have commenced initiatives that will and are having wide ranging locally and globally.

Presiding Apostle's latest appointment (Government)

The Royal Commonwealth Society, headed by the Queen of England, Her Majesty, Queen Elizabeth II, has appointed, Pastor Tunde Bakare, as the inaugural Chairman of the Advisory Council of its Africa office.

The body said the appointment was offered in recognition of his giant and brave strides, which he consistently pursued for the betterment of the

common man and the Nigerian society over time.

In a statement signed by its Regional Co-coordinator for Africa, John Apea, the society said: “Over the past few decades, we have been witnesses to your (Bakare) good deeds, which have consumed much of the ink flowing through writings in Africa and beyond; your unwavering crusade against corruption, your sincere love for Africa and your work as a respected pastor, statesman and philanthropist is unquestionable. To this end, we would be very delighted to have a man of your wisdom, experience, calibre and integrity to usher us into an interesting but dynamic era of race and international relations, development and co-operation. We are certain that together, the Africa office will be able to better the lives of all Africans by delivering on the Commonwealth thematic areas of prosperity, sustainability, fairness and security.”

Mountain of Government

Pastor Shola Adesoye's team in Abuja formulated a bill on mental health, this was put together by the transformative team in Abuja chapter and was forwarded to the National Assembly waiting for a motion on it to be moved to the floor. The bill will

replace the current, obsolete one that predates Nigeria's Independence.

Benue State Chapter submitted a contributing memo on request from the Benue state transition Committee titled "The Guiding Principles and Strategies for Benue State Administration 2019 – 2023.

Dr Charles Omole is appointed as one of the Editors for the IJCA - International Journal for Court Administration; and part of the Editorial Team of the Denning Law Journal, he has also been training senior member of Nigeria Police including CPs, AIGs, DIGs, IGP

Pastor Tope Popoola has been engaging with the Executives of the Ekiti State Government to help with effective people management and was recently elected President of Ado City Chamber of Commerce, Industries, Mining and Agriculture.

Pastor Seyi Oluwasola, Melbourne - Australia was recently elected as Chairman of the Fraser Federal electorate of the Ruling Party – Liberal Party

Mountain of Education

Benue State Chapter convened a meeting to address Leaders of Benue State University Joint Campus Ministries/Fellowships on the title "Birthing Excellence in Christian Leadership". About 93 leaders were in attendance from 16 different campus fellowships/Ministries. They were urged to : a) Create Indigent Christian Student Fund, b) Pioneer a body like Campus Christian Student of Nigeria and c) campus Evangelism by Sweets sharing with cultists

Mountain of Economy

Where entrepreneurs are being trained with early results: Malaysia Chapter started Kingdom Business School (KBS) of Economics Emancipation and Development (SEED) to teach on wealth creation and skill development. In 2019, five individuals are totally integrated into international trade. One of them have done export of 4 x 20ft containers of generators to Nigeria in 2019. Few ladies within Lagos Chapter started catering services and beauty care. Several entrepreneurs graduated and gainfully self-employed

Mountain of Family

Lagos Chapter is training in partnership with teen ALOUD (a global youth evangelism outfit with headquarters in Ghana) and engaging parents to change mind-sets for good governance, restoration of family values, community resilience, cohesion and building of the body of Christ. There are some reported early results: positive turn arounds among the youth, broken children - parents' relationship restored, getting youths are back to school.

“Necessity is therefore laid upon us to bring godly changes to our domains, cities and nations of our existence and influence through strategic and deliberate transformation initiatives and campaigns.”

We are pleased to bring you our first edition of the Global Apostolic Impact Network (GAIN) Newsletter, this will be the first of a quarterly newsletter with the primary objective of disseminating information not just across and within the network but outside the network as well.

The intent of this newsletter is not just to bring timely update on newsworthy events and activities within the GAIN family but to also use the medium in highlighting the various cutting edge initiatives of the network and its members in the business of city impact and nation building. We have come to know especially through the teachings of our Presiding Apostle – Dr Tunde Bakare that the Kingdom of God is huge and vast – far bigger than our family or local churches. Necessity is therefore laid upon us to bring godly changes to our domains, cities and nations of our existence and influence through strategic and deliberate transformation initiatives and campaigns.

According to apostolic traditions and in the light of present day truth and realities, GAIN recently upgraded the ante of its operation with a clarion call to all members for a need to have a paradigm shift and vigorously embark on - **DECENTRALIZATION, EXPANSION AND THE EXPORTATION OF OUR VALUES** in the bid to doing more for our God going forward within the reality of a **NEW NORMAL** brought into the experience of the world and its inhabitants by **COVID-19** and its pandemic effects.

Our comprehension of this **NEW NORMAL** involves fundamental shifts in our paradigm and approach to ministry in order to flourishingly partner with God for the imminent global harvest of souls and disciplining of nations with an immeasurable grace.

■ We must shift from just gathering around programmes, conferences and conventions into strategic scatterings - penetration, infiltration and infusion into every sphere of influence around us (DOMAINS)

■ Deliberately reorient, train and equip our members to become disciples sent into every sphere of influence (Mountains of Culture) with the gospel of the Kingdom.

■ We must become flexible and begin to decentralize authority in order to deliver our people from undue attachment to us (Pastors) and liberate them from the grip of being tied to a building (no matter how magnificent) before they can do the work of Ministry.

■ We have used the wilderness model to run ministry for too long a time, which has more or less promoted redundancy in the life of believers. We must shift to building a cosmopolitan lifestyle around the concept of ministry typified in why God replaced the Tabernacle of Moses with the Temple of Solomon. Our people are hereby trained to use their vocation as veritable tools of ministry wherever they find themselves.

■ We must restructure our churches to be effective as our brother's keeper during incidences of this nature next time. This can be achieved by putting platforms in place that makes the accountability of every member in the various divisions within our local assemblies especially at the household unit very easy (have a database)

■ We must invest and make use of technology on a large scale as a tool for evangelism and to disciple the nations in these last days. This is one major platform that we can use to gain the attention of and impact the whole world from one spot (Jer. 22:29 and Deut.32:1)

PROPHETIC WORD FOR THE SEASON

In the midst of the Covid-19 pandemic, when the world gripped with the fear of the unknown, the Lord graciously gave His word of comfort and hope to His servant. It is a word we should not forget and must continually bear in mind and keep waging our various campaigns with the prophetic word given by the Presiding Apostle for the season that;

“Though the road ahead is tough and rough, it will end in praise and honour. There will be no corpses on our streets because long before now the Lord had set a RAINBOW over Nigeria with the word RESET boldly written on it. There will be a change of guards at the national level and in the life of corporations. It is not over with us as a nation and as a matter of fact it is not over for us as a people until we win by God's grace.”

UNDERSTANDING THE SIX POINT AGENDA

1. CORE VALUE DEFINITION

Embodying the apostolic doctrine & culture
We know our identity & responsibility in Christ.
Redefine our Kingdom Values- Hope, Love, Mercy, Forgiveness, etc.

2. PROGRAM ENGAGEMENT

How we get involved in what God is doing, & extending the same within our community. -Every member of our Church, network must be involved in a transformation initiative yearly.
Our initiatives should affect the 7 mountains of culture.

3. PROFILING EXCELLENCE

Some network chapters are more equipped & enabled in certain areas than some others, so it's important that we network & leverage on each other's strengths to achieve more.

4. SUPPORT STRUCTURE

We need to have a structure for harmonizing & educating the diverse parts of the network.

5. GAIN MEDIA (WEBSITE)

To educate & create awareness of the various inputs of the network members globally. A platform for sharing impact, knowledge & exploits across board.

6. MEMBERSHIP DRIVE

A strategic development of the network by growing the various demographics. We need to get people who are versatile & competent in the diverse spheres of influence. Different people may share the pains, impact, ideas, strategies, etc.
